Digital Traffic Systems, Inc. (DTS) Recognized as a “New Mexico Technology Flying 40” Company

May 29, 2008 – (Albuquerque, NM) For the fifth consecutive year, Digital Traffic Systems, Inc. (DTS) has been selected as a Flying 40 award recipient and will be honored at the New Mexico Flying 40 Award luncheon on June 12th, 2008. The Flying 40 award recognizes the 40 fastest growing technology-based businesses in the state of New Mexico.

TVC President and CEO, Sherman McCorkle had the following to say about this event, “The Flying 40 event is an annual opportunity to showcase the excellent progress of locally grown technology firms. The event spotlights the development of some technology companies that are not well known to the public.”

DTS President and COO, Peter Keen had the following to say about this recognition, “We are proud and honored to once again be recognized for this award. It is through the hard work of the DTS team that we are able to grow, while providing the high level of quality and service that our customers have come to expect. We live by the motto, “Service Beyond Expectations!” and seek every day to continue to earn our customers business.”

The event is sponsored by KPMG, LLP, New Mexico Bank & Trust, the Albuquerque Journal Business Outlook, and Technology Ventures Corporation.

About Digital Traffic Systems, Inc. (DTS) – DTS, an Integrated Technology Solutions company, focuses on the specialized installation and service of Traffic Data, Electrical, Intelligent Transportation, Security /Surveillance, Signals/Lighting and Structured Cabling to provide critical information for use in transportation, safety, security, private and public applications. Our mission is to provide critical infrastructure installation, maintenance, operational, and technical services with a focus on quality and responsiveness.

About Technology Ventures Corporation (TVC) – TVC is a nonprofit charitable foundation funded by Lockheed Martin and the Department of Energy.
